Released: August 5, 2008

## DEADLINE FOR ANNUAL LIFELINE VERIFICATION SURVEYS AND CERTIFICATIONS

### WC Docket No. 03-109

Each year, eligible telecommunications carriers (ETCs) are required to verify the continued eligibility of a statistically valid sample of their Lifeline subscribers.<sup>1</sup> Under the terms of the *Lifeline Order*, states that have their own state-based Low-Income programs are required to establish state-specific verification procedures.<sup>2</sup> These state procedures should include how ETCs should verify continued eligibility and to whom the results should be submitted.<sup>3</sup> States that do not have state-based low-income programs are designated “federal default states.” ETCs in federal default states must follow the certification and verification procedures set out in the *Lifeline Order*.<sup>4</sup>

In a July 10, 2007 Public Notice, the Wireline Competition Bureau announced that an ETC in a state with its own state-based Low-Income program must submit a certification, signed by an officer of the company, to the Universal Service Administrative Company (USAC) by August 31, 2007, and on August 31 of each subsequent year thereafter, attesting that the ETC has complied with the state verification procedures.<sup>5</sup> The July 10, 2007 Public Notice also announced that all ETCs in federal default states must submit their annual Lifeline verification survey results to USAC by August 31, 2007, and on August 31 of each subsequent year thereafter.<sup>6</sup> Because August 31, 2008, falls on a Sunday and September 1, 2008, is a Federal holiday, this year the actual deadline will be September 2, 2008. Accordingly, this Public Notice serves as a reminder that by **September 2, 2008**, an ETC in a state with its own state-based Low-Income program must submit a certification, signed by an officer of the company, to USAC attesting that the ETC has complied with the state verification procedures, and all ETCs in federal default states must also submit their annual Lifeline verification survey results to USAC
