

REQUEST FOR PROPOSAL

RFP #00

RURAL HEALTHCARE PILOT PROJECT FUNDING YEARS 2008-2010

3-YEAR MANAGED NETWORK SERVICE PROCUREMENT

Rocky Mountain HealthNet

George DelGrosso
Executive Director
Colorado Behavioral Healthcare Council
1410 Grant Street, Ste. A-301
Denver, CO 80203

Rev A Dec 17

i. General Information

- i.1. Introduction. Rocky Mountain HealthNet ('RMHN') is a consortium (the 'Consortium') created by the Colorado Behavioral Healthcare Council on behalf of its member health care providers (HCPs) (the 'Members') to increase utilization of telecommunications and information services among public and non-profit healthcare providers serving rural and frontier communities in Colorado.
- i.2. Purpose. The purpose of this RFP is to procure for RMHN a robust, secure, sustainable, interconnected, managed broadband network ('Managed Network') that links the aforementioned Members to one another, provides access to the commodity Internet, provides access to Internet2, and peers with the major tertiary public and non-profit hospitals served by the Front Range GigaPop ('FRGP').
- i.3. Funding. RMHN will utilize funding provided by the Federal Communications Commission ('FCC') under the Commission's Order 07-198 ('Rural Healthcare Support Mechanism') of 19 November 2007 which selected as a participant for the Rural Healthcare Pilot Program ('RHCPP') the RMHN. RMHN and RMHN Member HCP organizations will provide matching funds as defined in the Order.
- i.4. Overview. The RMHN FY08-10 project will contract for wide-area, managed Ethernet network services for our Members. RMHN is soliciting bids from general contractors capable of providing this service. The selected general contractor shall coordinate all necessary activity to provide, manage and maintain this service, and conduct all necessary subcontracting activity to obtain the necessary connectivity, hardware and service components of the network. The Managed Network will include edge network electronics and devices and their active management to meet Member needs. This Managed Network service is an eligible cost under the FCC Order 07-198, Paragraph 74., which states, "Further, to the extent that a selected participant subscribes to carrier-provided transmission services ... in lieu of providing its own broadband network and access to advanced telecommunications and information services, *the costs for subscribing to such facilities and services are also eligible.*"
- i.5. RMHN Sites. Sites to receive service and bandwidths listed in Appendix A. Total HCP/site count is for overall network guidance, there may be HCPs/sites that choose not to participate in the network.
- i.6. Proposal Format. Bidders are required to cite by number and answer each numbered item in Sections 4, 5, and 6.
- i.7. Consolidated bids for the Managed Network are required. Separate bids for technological, logical, or geographical segments, or service elements of the project will not be accepted. Only consolidated bids providing comprehensive solutions for the Managed Network will be accepted.
- i.8. RFP Process. The RFP process is open to all competitive offers from qualified vendors (vendors with SPIN numbers), including independent telephone companies, local exchange carriers, cable operators, hardware distributors and manufacturers, cabling and construction contractors, or others who are able to provide consolidated bids for the requested Managed Network, including all connectivity, equipment, and managed network services. These competitive offers will be judged by RMHN according to the criteria set forth in Section 3.0 of his document.

1.0 Procurement Administration and Procedures

- 1.1. The RHCPP of the Universal Service Fund is administered by the Universal Service Administrative Company ('USAC') — as authorized by Congress and regulated by the FCC — to encourage the development of rural broadband networks to provide advanced healthcare

telecommunications capabilities and services to rural HCPs.

1.2. Notice: This project is subject to USAC procurement rules. Vendors must meet all USAC requirements. RMHN will submit a USAC Form 465 to USAC who will review the documentation and will post the RFP on the USAC website. More information on bidding and posting rules can be found at <http://www.usac.org/rhc-pilot-program/tools/search-postings-2008.aspx>.

1.3. The following considerations apply to the proposal submission / review process:

1.3.1. RMHN has established a web site for the convenience of bidders wishing to submit questions concerning this RFP. This web site is the sole means by which queries from bidders will be accepted. Questions to individual staff members via telephone/ telefacsimile, e-mail or postal mail, will not be entertained.

Responses to all questions submitted to the RMHN bidder web site will be posted on the site within four (4) working days of receipt, and constitute official communications from the RMHN project. Any communications with RMHN staff members other than via the RMHN web site should not be considered authoritative, are not binding on RMHN and may be disavowed without notice or explanation.

The RMHN bidder site may be reached at: <http://cbhc.org/rocky-mountain-healthnet-homepage/>

1.3.2. In the event it becomes necessary for RMHN to amend, add to or delete any part of this RFP, the amendment will be posted on the USAC web site, as required by the Order and by the USAC-mandated bidding procedures, and will additionally be posted on the RMHN bidder site.

1.3.3. Five (5) copies of bid proposals must be received at the RMHN office (to George DelGrosso, see address on cover page) no later than 16:00 MST on the 29th day following the day of posting of this RFP on the RHCPP web site, or the next business day if the 29th day falls on a weekend or holiday. This receipt deadline requirement is a mandatory requirement and is not subject to waiver by RMHN. Accordingly, no bid proposals will be accepted after the date and time specified. A late bid proposal will be returned unopened to the bidder.

1.3.4. One (1) softcopy (digital copy) must be emailed to George DelGrosso [gdelgrosso@cbhc.org] and debby.farreau@cha.com. by the same deadline specified in 1.3.3.

1.3.5. Bid Proposals will be opened at 09:00 MST the first working day following the receipt deadline. The bid proposals and the evaluation documents created by RMHN will remain confidential.

1.4. Bid Proposal General Requirements

1.4.1. Failure to comply with or supply any and all information requested to accompany bid proposals (as specified in Sections 4, 5, and 6) may be cause for rejection of the proposal as non-compliant.

1.4.2. All bid proposals must be valid for a period of 90 days from the date of submission.

1.4.3. By submitting a bid proposal the vendor agrees to the terms and conditions contained within this RFP.

2.0 Contract Terms

- 2.1. Implementation timeline must begin within 15 days of fully executed agreement for requested services.
- 2.2. Managed Network services shall be provided for 3-year duration.
- 2.3. Proposed system testing and acceptance provisions will be required on all bid proposals. RMHN reserves the right to work in concert with vendor to develop appropriate testing and acceptance criteria for specific installations or configurations, to be defined and accepted by both parties prior to contract initiation.
- 2.4. Any contract resulting from this RFP will contain specific deliverable item acceptance provisions.
- 2.5. Bid proposals will contain acknowledgement of, and provisions for providing, USAC invoicing requirements and formats. Bidder will conform to invoicing procedures and processes as promulgated by USAC.
- 2.6. Bidder agrees to provide a project manager or other individual who will be the primary contact for all dealings with RMHN.
- 2.7. Members will be responsible for decommissioning of existing circuits being replaced by new RMHN-specified circuits.

3.0 Proposal Evaluation

- 3.1 The following evaluation factors will be used in selecting the most cost-effective proposal:
 - price, including pricing discount for total aggregated annual bandwidth
 - network features, technical excellence
 - network transmission quality and reliability
 - prior experience, past performance
 - personnel qualifications, management capability

In addition, the following items will be considered in proposal evaluation:

- 3.2. Vendor's response to the RFP demonstrates a clear and complete understanding of the goals of the overall project.
- 3.3. Bidder's proposition for providing the consolidated project needs – i.e., proposals that combine connectivity, hardware, and managed service.
- 3.4. Technical evaluation.
 - 3.4.1. Vendor's response to the RFP demonstrates a clear and complete understanding of the intended Managed Network design.
 - 3.4.2. Bidder's proposal provides end-site managed Ethernet connectivity at the demarcation for the subscribed bandwidth and an effective means of communication with end-user sites.
 - 3.4.3. Vendor's wide area provisioning of this service shall be transparent to the end-user. Notwithstanding this, vendor proposals will be evaluated with respect to the feasibility, reliability and cost-effectiveness of the wide area backbone strategy for deploying the Managed Service.

- 3.4.4. Bidder's proposal includes Ethernet routers at each Member site as a component of the Managed Service.
- 3.4.5. Configuration, maintenance, and changes to vendor maintained network equipment are provided as a component of the Managed Service.

3.5. Provider / Vendor Qualifications

- 3.5.1. Bidder possesses the ability to provide proposed Managed Service in the manner and within the timeline(s) specified in the RFP, as determined by RMHN, based on:

- 3.5.1.1. References provided

- 3.5.1.2. Reputation in the industry

- 3.5.1.3. Past performance in the experience of one or more of the RMHN Members (if applicable)

- 3.5.1.4. Objective qualifications of key staff and proposed project personnel

- 3.6. Price / Cost Evaluation. The selection will be based on all factors indicated in this Section 3, and may not go to the lowest price bidder if price is outweighed by a combination of other features in the winning vendor's bid.

3.7. Decision

- 3.7.1. RMHN reserves the right to select bid proposals which, in the sole judgment of RMHN, most nearly conforms to the specifications set forth herein, will best serve the needs of RMHN and its Members, and provides the most cost-effective means for producing those results.

- 3.7.2. RMHN reserves the right to waive any and all issues of form or presentation in considering bid presentations for acceptance or rejection, if, in the sole opinion of RMHN, such waiver is in the best interests of the project.

- 3.7.3. RMHN is not responsible for any costs incurred by a vendor related to the preparation or delivery of the bid proposal, or any other activities carried out by the vendor as it relates to this RFP.

- 3.7.4. RMHN is not obligated to accept any proposal received in response to this RFP. In particular, RMHN may accept received proposals in whole or in part, or it may reject all proposals received.

- 3.7.5. Changes in applicable laws and rules may affect the award process or any resulting contracts. Vendors are responsible for ascertaining pertinent legal requirements and restrictions. Vendors are encouraged to visit the official Federal websites pertaining to the Pilot Project <http://www.fcc.gov/cgb/rural/rhcp.html>.

- 3.7.6. The selection decisions made by RMHN and reported to USAC under this RFP are final, and appeals or re-submissions will not be considered.

4.0 Technical Information to be Provided by Bidders

BIDDERS: RESPOND TO EACH NUMBERED ITEM, BY NUMBER

- 4.1. Describe how vendor will deploy, operate and maintain a statewide, broadband, wide area, managed Ethernet network to all Member sites in Colorado (listed in Appendix A) in support of the project's selection as a participant on the FCC Rural Healthcare Pilot Program.
- 4.2. Describe how vendor will provide broadband end-user Ethernet connectivity for the following types of sites and bandwidths listed in Appendix A:
 - 40 Mbps for regional centers
 - 4.5 Mbps for all other sites
- 4.2.1. Describe whether schedule bandwidth services are committed rates. Vendor shall indicate what bursting margins exist for each bandwidth category.
- 4.2.2. What is the Maximum Transmission Unit (MTU) on vendor provided network connections?
- 4.3. Describe how vendor will maintain edge routing devices, router configuration, DNS services, timely routing table changes, router maintenance and upgrades.
- 4.3.1. Describe what system the vendor proposes to use for RMHN sites to request router changes and/or inform RMHN sites of network status.
- 4.4. Provide a description of firewall services vendor will provide as part of the managed service.
- 4.5. In addition to the sites in Appendix A, vendor shall provide a 10 Mbps connection to the Front Range GigaPop ('FRGP') with physical connectivity either to 1850 Pearl, Denver, Colorado (Level3) or 1200 Larimer, NC 2208 (University of Colorado at Denver, FRGP). Describe how this connection will be made. Only Internet2 traffic originating from qualified (public sector on non-profit) HCCP members shall be routed to the FRGP. Describe how this routing will be achieved.
- 4.6. Describe how vendor will maintain separated sub-networks for: a) RMHN intra-network traffic (e.g., internal, site to site), b) commodity Internet traffic, c) non-qualified Member traffic (private sector RMHN members), and d) Internet2 traffic.
- 4.6.1. Describe the segregation method to be used to maintain the separated sub-networks.
- 4.6.2. Describe how traffic volumes on the separate sub-networks will be regulated within the overall per-site subscribed bandwidth.
- 4.7. Addressing:
 - 4.7.1. Explain whether vendor has sufficient IPv4 addressing to support the planned network.
 - 4.7.2. Describe plan for moving to IPv6, in what timeframe, and how vendor will accommodate IPv6 applications needed by Members.
- 4.8. Describe any provisions for QoS to be offered, whether this is by connection or by application (voice, data, and video).
- 4.9. Indicate whether most RMHN traffic will remain in Colorado, and if not, describe exceptions.
- 4.10. Indicate whether vendor will support multicast and include a statement of current and future planned support levels.
- 4.11. Provide an analysis of redundancy in the wide area network proposed to carry RMHN traffic.

Vendor shall provide a metric of redundancy for each RMHN site.

- 4.12 Provide a description of the Network Operations Center that will support the RMHN network, where it is located, what are its hours, what trouble ticket software is utilized, and at what priority level of service (including level of entry) will RMHN support calls (by phone, email or web) be handled vs. other NOC customers.
- 4.13 Provide a detailed Service Level Agreement for the RMHN network, to include uptime and response time guarantees.
- 4.14 Bidders are cautioned that some in all Members regions are currently utilizing circuits funded in part by the Rural Health Care Program, administered by USAC. All connectivity bids solicited under this RFP are for newly-provisioned circuits. No bid may include any change, updating, or "re-grooming" of any circuit currently being funded by the Rural Health Care Program. Further, installation timing of new circuit installations must be coordinated such that existing circuits are decommissioned as the new, RHCPP-supported circuits are installed. Bids failing to meet these requirements will be rejected without further consideration.

5.0 Management Information to Be Provided by Bidders

BIDDERS: RESPOND TO EACH NUMBERED ITEM, BY NUMBER

- 5.1. Vendor shall provide an executive overview of the company including:
 - 5.1.1. Prior experience with the requested type of dedicated network
 - 5.1.2. Summary of the personnel to be involved in
 - 5.1.2.1. Management oversight
 - 5.1.2.2. Project management
 - 5.1.2.3. Deployment and installation
 - 5.1.2.4. Maintenance
 - 5.1.2.5 Network operations support
- 5.2. Project management. Bid proposals must include a project plan with timelines detailing milestones and overall schedule. Critical path items and potential delay circumstances and workarounds must be clearly identified.
- 5.3. Propose a system of testing and acceptance provisions.
- 5.4. Vendor shall provide an example of the end-user site agreement to be executed with each site to begin service.
- 5.5. Vendor shall provide an example of a consolidated billing that will be provided to the Consortium on a monthly basis that is in conformance with the requirements of Order 07-198 and Form 467.
- 5.6. Vendor shall represent that it will provide annually in conformance with the requirements of Order 07-198 that information required by the Consortium for submission of Form 466.
- 5.7. Vendor shall represent that it will assist RMHN in the preparation of quarterly reports required by Order 07-198, Section V, paragraphs 126-129.

- 5.8 Vendor shall supply a copy of FCC Form 445 as submitted that shows compliance with the Communication Assistance for Law Enforcement Act (CALEA).
- 5.9. Vendor shall supply a copy of the vendor's Acceptable Use Policy (AUP). Vendor shall indicate how changes to the AUPs are handled, e.g., how much time or notice is given in the event of non-compliance for some reason). Vendor shall outline the procedure for handling violations to the AUP.
- 5.10 Vendor shall supply a copy of any privacy policy documents relevant to the customer relationship with RMHN, its Members, and the clients of the participating HCP members.

6.0 Price and Cost Information to be Provided by Bidders

BIDDERS: RESPOND TO EACH NUMBERED ITEM, BY NUMBER

6.1. Price

- 6.1.1. Vendor shall offer statewide, standardized pricing, by subscribed end-user bandwidth, independent of site location for all eligible Members of RMHN whether listed in Appendix A or later deemed to be a Member by RMHN.
- 6.1.2. Pricing for Members at all bandwidths shall be fixed or decrease over the three-year period of this service agreement.
- 6.1.3. The price offered to RMHN Members shall not be conditioned on a minimum number of connections, participating Members, or aggregate bandwidth.

6.2. Cost

- 6.2.1. Notwithstanding the fact that price shall be an evaluation criterion, bid proposals must identify all costs associated with the proposed solution, including design, installation, configuration, maintenance, and monthly recurring costs in accordance with the categories in Order 07-198, Appendix G.
- 6.2.2. All costs may not qualify for RHCPP funding, so it is critical that accurate, detailed cost information be provided for all portions of the bid proposal.

Rocky Mountain Health Net Request for Proposal - Appendix A - December 17, 2008

	HCP Name	Address	City	State	ZIP	Narrative Description of Telecommunications and/or Internet Services Needed (including capacity sought)	Eligible for funding
1	Rocky Mountain HealthNet	1410 Grant St., Ste. A-301	Denver	CO	80203	Installation and recurring 40 Mbps Ethernet Service	No
2	Foothills Behavioral Health	9101 Harlan Street, #100	Westminster	CO	80031	Installation and recurring 40 Mbps Ethernet Service	No
3	Behavioral Healthcare, Inc	155 Inverness Drive West, Ste 201	Centennial	CO	80112	Installation and recurring 40 Mbps Ethernet Service	No
4	Aurora Mental Health Center	11059 E. Bethany Drive, Ste 200	Aurora	CO	80014	Installation and recurring 40 Mbps Ethernet Service	Yes
5	Aurora Mental Health Center - Metro Children's Center	10782 E. Alameda Dr.	Aurora	CO	80012	Installation and recurring 4.5 Mbps Ethernet Service	Yes
6	Aurora Mental Health Center - DDMI	1290 Chambers Road	Aurora	CO	80011	Installation and recurring 4.5 Mbps Ethernet Service	Yes
7	Aurora Mental Health Center - Fitzsimmons Treatment Center	2206 Victor Street	Aurora	CO	80010	Installation and recurring 4.5 Mbps Ethernet Service	No
8	Aurora Mental Health Center - North Adult Services	1646 Elmira Street	Aurora	CO	80010	Installation and recurring 4.5 Mbps Ethernet Service	Yes
9	Aurora Mental Health Center - Hampden Academy	14301 E. Hampden Ave	Aurora	CO	80014	Installation and recurring 4.5 Mbps Ethernet Service	Yes
10	Aurora Mental Health Center - Community Transition Program	1400 Chambers Road	Aurora	CO	80011	Installation and recurring 4.5 Mbps Ethernet Service	Yes
11	Aurora Mental Health Center - Mrachek House	14801 East 18th Place	Aurora	CO	80011	Installation and recurring 4.5 Mbps Ethernet Service	No
12	Aurora Mental Health Center - John Thomas House	16390 East 14th Place	Aurora	CO	80011	Installation and recurring 4.5 Mbps Ethernet Service	No
13	Asian Pacific Development Center	1544 Elmira Street	Aurora	CO	80010	Installation and recurring 4.5 Mbps Ethernet Service	No
14	Asian Pacific Center for Human Development	1825 York Street	Denver	CO	80206	Installation and recurring 4.5 Mbps Ethernet Service	Yes
15	Asian Pacific Development Center (Colorado Springs)	6055 Lehman Drive #103	Colorado Springs	CO	80918	Installation and recurring 4.5 Mbps Ethernet Service	No
16	Arapahoe/Douglas Mental Health Network - Inverness Center	155 Inverness Drive West, Suite 200	Englewood	CO	80112	Installation and recurring 40 Mbps Ethernet Service	Yes
17	Arapahoe/Douglas Mental Health Network - Sycamore Center	5500 S. Sycamore St.	Littleton	CO	80120	Installation and recurring 4.5 Mbps Ethernet Service	Yes
18	Arapahoe/Douglas Mental Health Network - Southwood Center	61 West Davies St.	Littleton	CO	80120	Installation and recurring 4.5 Mbps Ethernet Service	Yes
19	Jefferson Center for Mental Health - Independence	4851 Independence St., Suite 100	Wheat Ridge	CO	80033	Installation and recurring 40 Mbps Ethernet Service	Yes

20	Jefferson Center for Mental Health - Cedar	9808 West Cedar Avenue	Lakewood	CO	80226	Installation and recurring 4.5 Mbps Ethernet Service	Yes
21	Jefferson Center for Mental Health - Evergreen	28577 Buffalo Park Road; Ste 250	Evergreen	CO	80439	Installation and recurring 4.5 Mbps Ethernet Service	Yes
22	Jefferson Center for Mental Health - South	9200 West Cross Drive Suite 421	Littleton	CO	80123	Installation and recurring 4.5 Mbps Ethernet Service	Yes
23	Jefferson Center for Mental Health - Summit Center	3810 Pierce Street	Wheat Ridge	CO	80033	Installation and recurring 4.5 Mbps Ethernet Service	No
24	Jefferson Center for Mental Health - North Wadsworth	7878 Wadsworth Blvd	Arvada	CO	80003	Installation and recurring 4.5 Mbps Ethernet Service	Yes
25	Jefferson Center for Mental Health - West Colfax	9485 W Colfax Ave	Lakewood	CO	80215	Installation and recurring 4.5 Mbps Ethernet Service	Yes
26	Jefferson Center for Mental Health - Foothills Behavioral Health	9101 Harlan Street, Suite 100	Westminster	CO	80031	Installation and recurring 4.5 Mbps Ethernet Service	Yes
27	Jefferson Center for Mental Health - Jeff Hills Lakewood	421 Zang Street	Lakewood	CO	80228	Installation and recurring 4.5 Mbps Ethernet Service	No
28	Jefferson Center for Mental Health - Jeff Hills Aurora	1290 S Potomac Street	Aurora	CO	80012	Installation and recurring 4.5 Mbps Ethernet Service	No
29	Community Reach Center - Mary Ciancio Memorial Bldg	8931 Huron Street	Thornton	CO	80260	Installation and recurring 40 Mbps Ethernet Service	Yes
30	Community Reach Center - Brighton	30 South 3rd Avenue	Brighton	CO	80601	Installation and recurring 4.5 Mbps Ethernet Service	Yes
31	Community Reach Center - Commerce City	4371 East 72nd Avenue	Commerce City	CO	80022	Installation and recurring 4.5 Mbps Ethernet Service	Yes
32	Community Reach Center - Northglenn	11285 Highline Drive	Northglenn	CO	80233	Installation and recurring 4.5 Mbps Ethernet Service	Yes
33	Community Reach Center - Mesa House	5831 East 74th Avenue	Commerce City	CO	80022	Installation and recurring 4.5 Mbps Ethernet Service	No
34	Community Reach Center - Community House	7595 Krameria	Commerce City	CO	80022	Installation and recurring 4.5 Mbps Ethernet Service	No
35	Community Reach Center - Intensive Treatment House	8384 Elati	Denver	CO	80260	Installation and recurring 4.5 Mbps Ethernet Service	No
36	Community Reach Center - Huron House	621 West 96th Avenue	Thornton	CO	80260	Installation and recurring 4.5 Mbps Ethernet Service	No
